The Effect of Technical Problems on the Operation Process in Pediatric Laparoscopy
Kuzdan MO, Alim R, Karaaslan B, Çelebi S, Seyithan O

Ağcaoğlu O, Aksakal N, Azamat IF, Doğan S, Mercan S, Barbaros U

Clinicopathologic Differences Between Micropapillary and Papillary Thyroid Carcinoma
Kartal K, Aygün N, Uludağ M

Approach to Patients with Malignant Melanoma of Unknown Primary Origin
Sirvan SS, Eren HI, Kurt Yazar S, Günenç AC, Karasoy Yeşilada A, İrmak F, Tuncel D

Platelet Indices as the Predictor of Antibiotics Response in Surgical Wound Infections Following Total Abdominal Hysterectomy
Akca A, Yılmaz G, Koçoglu N

The Effect of Single High-Dose Preoperative Intravenous Tranexamic Acid Administration to Reduce Blood Loss in Patients with Primary Total Knee Replacement
Talmaş MA, Görgel MA, Ertan Birsel S, Sonmez MM, Özdemir HM

Comparison of Macintosh Laryngoscope and GlideScope® for Orotracheal Intubation in Children Older Than One Year
Küçük L, Sürman Çınar A

The Effect of Lumbar Spinal Surgery History on Intradiscal O2-O3 Treatment Results in Patients with Lumbar Disk Herniation
Kılıç M, Erçalık T

Effects of the Folk Medicinal Plant Extract Ankaferd BloodStopper on the Healing of Colon Anastomosis: An Experimental Study in a Rat Model
Ekici U, Ferhatoğlu MF, Çığız B, Uludağ M

Evaluation of the Knowledge of Cow’s Milk Allergy among Pediatricians

Factors Affecting Breastfeeding and Complementary Feeding Choices for Children Aged 24 to 48 Months
Özkul Sağlam N, Bulbul L, Yaroğlu Kazancı S, Hatipoğlu SS

Is Cardiac Troponin I Valuable to Detect Low-Level Myocardial Damage in Congestive Heart Failure?
Sirin G, Borlu F

In-hospital Outcomes of Patients with ST-segment Elevation Myocardial Infarction who were Intubated before Primary Percutaneous Intervention: Experience of a tertiary center

Comparison of the Effects of Metoclopramide and Ondansetron on Emergency Service Observation Times in Acute Gastroenteritis-Related Nausea and Vomiting Cases
Afacan MA, Tayfur I
## CONTENTS

**VOLUME 53   ISSUE 2   YEAR 2019**

### INVITED REVIEW

**Limitations of Continuous Neural Monitoring in Thyroid Surgery**
Caruso E, Pino A, Pontin A, Pinto G, Damiano C, Catalfamo A, Famà F, Dionigi G. ................................................................. 81

### REVIEW

**Intraoperative Adjunct Methods for Localization in Primary Hyperparathyroidism**
Aygün N, Uludağ M. ................................................................................................................................................................................ 84

**Approach Toward Diabetes Treatment in the Elderly**
Altuntaş Y ..............................................................................................................................................................................................................96

**Three-dimensional Computerized Tomography and Multiplanar Imaging of Developmental Hip Dysplasia**
Bankaoğlu M.........................................................................................................................................................................................................103

### ORIGINAL RESEARCH

**The Effect of Technical Problems on the Operation Process in Pediatric Laparoscopy**
Kuzdan MO, Alim R, Karaaslan B, Çelebi S, Seyithan Ö................................................................. 110

**Comparison of Clinical Outcomes of Single-Incision Versus Conventional Multiport Laparoscopic Distal Pancreatectomy: A Single Institution Experience**
Ağcaoğlu O, Aksakal N, Azamat IF, Doğan S, Mercan S, Barbaros U. ........................................................................................................ 114

**Clinicopathologic Differences Between Micropapillary and Papillary Thyroid Carcinoma**
Kartal K, Aygün N, Uludağ M................................................................................................................................. 120

**Approach to Patients with Malignant Melanoma of Unknown Primary Origin**
Sirvan SS, Eren HI, Kurt Yazar S, Güneş AC, Karasoy Yeşilada A, Irmak F, Tuncel D................................................................... 125

**Platelet Indices as the Predictor of Antibiotics Response in Surgical Wound Infections Following Total Abdominal Hysterectomy**
Akça A, Yılmaz G, Koroğlu N................................................................................................................................................................. 132

**The Effect of Single High-Dose Preoperative Intravenous Tranexamic Acid Administration to Reduce Blood Loss in Patients with Primary Total Knee Replacement**
Talmaç MA, Görgel MA, Ertan Birsel S, Sönmez MM, Özdemir HM ............................................................................................................ 137

**Comparison of Macintosh Laryngoscope and GlideScope® for Orotracheal Intubation in Children Older Than One Year**
Kılınç L, Surhan Çınar A. ........................................................................................................................................................................... 143

**The Effect of Lumbar Spinal Surgery History on Intradiscal O2–O3 Treatment Results in Patients with Lumbar Disk Herniation**
Kılıç M, Erçalık T. ................................................................................................................................................................................... 148

**Effects of the Folk Medicinal Plant Extract Ankaferd BloodStopper on the Healing of Colon Anastomosis: An Experimental Study in a Rat Model**
Ekici U, Ferhatoğlu MF, Çiğtez B, Uludağ M............................................................................................................................ 154

**Evaluation of the Knowledge of Cow’s Milk Allergy among Pediatricians**
Factors Affecting Breastfeeding and Complementary Feeding Choices for Children Aged 24 to 48 Months
Özkul Sağlam N, Bülüb L, Yaroğlu Kazancı S, Hatipoğlu SS ................................................................. 165

Is Cardiac Troponin I Valuable to Detect Low-Level Myocardial Damage in Congestive Heart Failure?
Sirin G, Borlu F .............................................................................................................................................. 172

In-hospital Outcomes of Patients with ST-segment Elevation Myocardial Infarction who were Intubated before Primary Percutaneous Intervention: Experience of a tertiary center

Comparison of the Effects of Metoclopramide and Ondansetron on Emergency Service Observation Times in Acute Gastroenteritis-Related Nausea and Vomiting Cases
Afacan MA, Tayfur İ ...................................................................................................................................... 186

CASE REPORT

Effect of Partial Pars Plana Vitrectomy in Two Cases: Removal of Intraocular Foreign Body and Intraocular Lens Dropped Into Vitreous
Demir M, Karataş E, Aslan D, Arslan AA ............................................................................................................ 190

Sugammadex for Cesarean in a Patient with Multiple Sclerosis
Yılmaz R, Uzun ST, Reisli R ................................................................................................................................. 190

LETTER TO THE EDITOR

Considerations in the Measurement of Lipid Panel Tests
Ayyıldız H, Kalaycı M, Koca O ............................................................................................................................ 199
